

**WELCOME ON BOARD A NEW SHIP.
OR AS WE LIKE TO SAY, WELCOME TO A WHOLE NEW WORLD.**

The Premicon Queen is a cruise ship like no other. Complementing the TwinCruiser's state-of-the-art design – separate engine and passenger areas for vibration-free travel – is a range of satisfying, luxurious comforts. The result is a leisurely cruise over Europe's most beautiful waterways. Relaxation. Balance. And absolute pleasure. The Premicon Queen features a suitably elegant atmosphere with her exquisite décor consisting of the richest woods, the finest carpets, high-quality marble, shiny chrome and luscious leather.

One step on board and you'll feel the special ambience. The entrance area with reception and glass elevator, gallery staircase and glass dome offers guests just a glimpse of the architectural wonders to be found on this one-of-a-kind river cruise ship. The friendly smiles on our crew members' faces reflect the hospitality that will make our ship feel like your home for a few days. Upon arrival, enjoy the delicious complementary cocktail with which we welcome all guests on board the Premicon Queen. Before you withdraw to your suite to get ready for the meticulously prepared evening meal, you might want to take a short stroll around the ship. There's a lot to discover: the glass-encased restaurant, for example, which is truly unique for a river ship, featuring high ceilings and spectacular views on three sides; the historic steamship salon and clubroom, where the finest cigars and whiskeys are served; and the Viennese café, where you really should try the authentic Sacher Torte (a delectable chocolate cake from Vienna).

On the spacious, wind-protected sundeck, a number of lounge areas invite you to relax in the sun. Or you can have a try at a round of golf on the putting green. But the ship's highlight is without a doubt the glass encased Theatron. During the day it offers a fascinating view forward from the panoramic bar, and at night it becomes a showcase of musical and theatrical wonders. All you have to do is decide from among the endless possibilities for enjoyment.
