

SHIP SERVICES

DINING A journey on the Premicon Queen is an homage to good taste. We mean that literally. Experience it for yourself in the Queen's restaurant, where every day our chef prepares extraordinary dishes from all over the world. On our gourmet cruises, top international chefs join us to prove their mastery of the kitchen.

A typical day of culinary treats starts between 6:00 and 10:30 a.m. with service directly at your table of anything your heart desires. Watch our chef prepare your à la carte omelet in the show kitchen. If you prefer, you can also enjoy your breakfast in bed or on your loggia. Beginning at 12 o'clock, lunch is served. Whether you let our chef create a menu for you or put together your own combination à la carte, you will always be treated to the atmosphere and service of a world-class restaurant. The culinary highlight and a genuine thrill is the dinner, which we also offer à la carte. You have a selection of delectable dishes from all over the world to choose from. Our chef will create a very personal five-course meal just for you. Welcome to a festival of senses. The days on board the Premicon Queen will melt on your tongue – literally.

ENTERTAINMENT On board the Premicon Queen, we write "Entertainment" in capital letters. Because you're here to enjoy yourself. Our orchestra is with us for the entire journey, and the international guest stars that join us at different ports will provide you with the finest in entertainment. So take a seat in the Theatron, where you always have a perfect view of the stage from comfortable groups of seats, and let fantastic live concerts, shows and comedies delight you. Professional artists in fields ranging from folk to classical music and jazz to vaudeville demonstrate their skill and turn every evening into an unforgettable experience. The dance floor and cocktail bar with soul-stirring piano music do their part to create the enchanted mood aboard the Premicon Queen while we are anchored in the ports of Europe's most beautiful cities.

EXCURSIONS What would a ship journey be without the land excursions? These are your opportunities to experience new cultures, to enter the lively world of European cities, to gather and savor new impressions. And then to weigh anchor, sail on, be carried effortlessly by the current to the next place, to the next special adventure.

On our land excursions individuality is of primary importance. Our guests have nothing to do with large tourist groups. In your suite every evening you will find individual tour suggestions designed especially for you by our cruise director, customized to your personal wishes and preferences. Of course, you can make your own suggestions, too. From private tastings with famous winemakers to mountaintop helicopter excursions – we make it all possible.

More sport? We'll take you to the most beautiful golf courses or organize a hike with a mountain guide. In the evening the concierge will offer you a cultural program consisting of opera, theater, musicals or concerts as an alternative to our onboard productions. All shore excursions take place, if possible, away from the throngs of tourists, in small groups with a personal travel guide and minivan or VIP Liner. Our travel route pages show you a few highlights from our exclusive shore excursion program. However, many additional special excursions are available for you to choose from. You will receive a complete overview along with your travel documents.

SPA Get away from everyday life. Take some time – for yourself, for the things that are important to you but often get neglected in the everyday routine. The Premicon Queen is the perfect place for it. Our lavish, well-lit wellness area at the front of the ship is a haven of rest and relaxation. Let the weight fall from your shoulders. Indulge yourself and re-energize. The glass-encased Saunarium offers you a wonderful view of the passing shore as well as privacy, since you cannot be seen from outside. A shower system and the large whirlpool complete your relaxation pleasure. Whenever you like, our trained staff are available for massages, or you can indulge yourself with an acupuncture or Kneipp treatment. Or stay fit with state-of-the-art cardio training machines. Whatever you decide to do, you will always leave our wellness area with the relaxed smile so characteristic of Premicon Queen passengers.
