

3 RIVER CRUISE

A JOURNEY FULL OF WONDERS: MAINHATTAN, FRANCONIAN VINEYARDS AND HERRENCHIEMSEE CASTLE.

The water route from the Rhine to the Danube is a very special journey. In early September the Premicon Queen travels on the Rhine-Main-Danube Canal, passing through one of central Europe's most beautiful landscapes – with such world famous sites as the bishop city of Würzburg, the World Heritage Site of Bamberg, the birthplace of Albrecht Dürer, Nuremberg, and the idyllic Altmühltal (Valley of Old Mills). At every stop you'll be able to take part in unique excursions – a gourmet cooking course, a ramble through golden Prague or a tour through the world of BMW in Munich. Both trips can be booked together to make an extended journey

The route from Koblenz through the Middle Rhine Valley with its castles and fortresses is one of peace and harmony. After circling the legendary Lorelei, the Premicon Queen will leave behind the Rhine. Her first stop on the Main River will be Frankfurt. There you'll enjoy the view of the skyline from the 55th floor of the Main Tower. Invigorated by Äppelwoi (local apple wine), Handkäse (sour milk cheese) and music, you'll head to a center of international finance. We'll visit the Frankfurt Stock Exchange and see the action going on at one of the most important financial trade centers in Europe. Further downstream the Main flows through the Franconian wine country and creates a magical triangle. We will leave plenty of time to explore Würzburg, to marvel at the palace and admire the view from Marienberg Fortress.

Or you can head to Bamberg. Made up of narrow canals like those of Venice, the entire old city is a UNESCO World Heritage Site. The Bamberg town hall splits the current of the Regnitz River like a large ship. We'll continue through Nuremberg and the Altmühltal (Valley of Old Mills) to Regensburg, where your cruise ends
